Welcome to Alba, one of the most best preserved ghost towns in Colorado, a small town overrun with tourists in summer keeping the town thriving during their bleak winters.

Cam swore black and blue six years previously that he'd never come back, but one voicemail from his father had him uprooting his life and making his way back home, being labeled the bad boy that label seemed to stick even years later when he steps back on the towns soil. The towns folk don't welcome him back with open arms.

Being back on home turf it's not long before he encounters Willow.

OOOMGGG!!! Here I sit, days after reading Rebecca Yarrosâ€™™

, a story that stole my heart from the very page ...

This broken beauty held my heart hostage the whole time reading. A heart that continuously beat for this book, broke for this book, and belongs to this book.

Yarros paints such a vivid picture of poetic words where I felt like I too was a resident of small town Alba, Colorado, living among these compelling and compassionate characters who were caught in a battle of perception and reality as they searched for love and acceptance. A story that struck close to home from the lovable and perfectly imperfect characters to the military life to the dementiaâ€™”all elements that made this journey in words personal. So real and relatableâ€™”as if a small piece of me is ever present in the worlds that Yarros brilliantly brings to life with each book she writes.

This book is so broken, so brutally honest, and so beautifully toldâ€™”

Itâ€™™s message is simple but so meaningful: Life and love are great and truly precious things.

Without a doubt, Great And Precious Things is Yarros' best work to-date. Few writers bring together undeniable romance and touching emotional moments like Yarros. She's a master at weaving together details so intricately that you feel like you're a part of the story as it's taking place. It's a talent that not all possess. She captures you so fast that by the second page, you feel like you're home. It's bizarre ... and addicting. It's one of the greatest things to find as a reader.

She captures you so fast that by the second page, you feel like you're home. It's bizarre ... and addicting. It's one of the greatest things to find as a reader.

The themes of the story resonated so deeply with me. What family hasn't been touched by disease? How many of us hasn't felt like the black sheep at some point or another? This story entertains.

Interestingly, it also nurtures you as you go along like a warm blanket on a chilly night. It's a story you need, a tale that scratches an itch that you couldn't quite put your finger on. It makes you believe in family. In community. In second chances and healing. It gives you hope at a time when we all need a little bit of that.

The characters are dynamic and Camden is the ultimate hero. He steals scenes quietly with his grit and chip-on-his-shoulder bravado. He's exactly what I'm looking for when I crack open the pages of a book. He's a treat, a wonderful concoction of sex appeal and a heart of gold that I fell head-over-heels for by the end of the first chapter. I love him.

Great And Precious Things is a tale I will remember. It's is a story that have me saying, "Oh, Colorado? I lived there once with a man named Cam ..."

Whenever I pick up a book by the beautiful Rebecca Yarros I know one thing. I am going to get ALL the feels. So I try to do it at a time when I can afford to experience them which, with a house full of kids, is in short supply.

So I put my hand up for a review copy and waited for my rejection only to run through the house squealing when I got it. But then it taunted me. Every single time I opened my kindle, there it was And all I wanted was to crawl into my bed with a locked door and box of

Whenever I pick up a book by the beautiful Rebecca Yarros I know one thing. I am going to get ALL the feels. So I try to do it at a time when I can afford to experience them which, with a house full of kids, is in short supply.

So I put my hand up for a review copy and waited for my rejection only to run through the house squealing when I got it. But then it taunted me. Every single time I opened my kindle, there it was And all I wanted was to crawl into my bed with a locked door and box of tissues and dive in but I adulated like a champ and waited.

Obviously it was worth the wait. No one writes like Rebecca. No one makes me care about everyone and everything like she does. Her words all have a weight to them that you can only experience while reading one of her stories.

Cam was such a beautiful character. I want to say he was broken but it feels wrong. He was too solid and dependable and perfect to be called broken. His life experiences had been brutal and harsh but he came through them with so much love and compassion he can't be described as broken.

Willow had her own strength and it so perfectly complemented Cam's, it was perfect. The connection between the two of them leapt from the page and held onto my heart for the whole book.

The background characters were perfect in that I felt them too. Their small mindedness and judgement felt all too real, like small town anywhere, where everyone remembers everything through the curtain of their opinion. But I enjoyed watching them have their eyes opened even if it was still a little less groveling than I would like.

Anyway the only thing you need to know about this book to go out and purchase it is that Rebecca Yarros wrote it. And of course it is as perfectly, devastatingly, beautiful and haunting as all her other stories. Bring tissues.
